Women are victims of Violence in various dimensions in the society. Many factors inhibit women from reporting these victimizations both to the family members and police. Due to social stigmas and useless loss people are not willing to report. So to protect themselves women need to learn self-defence.

Life is a gift and it is also unpredictable. Now a day's youth need to prepare themselves to face unexpected situations and life's challenges in various circumstances like at home, work place etc.

Self-defence helps to develop several human capabilities like self-esteem, overcoming fear, awareness/ alertness and respective self.
